Other Information

This material and its decay products are radioactive.Depending on degree of exposure, estimation of dose received may be required by whole body counting techniques.Depending on the degree of exposure, periodic medical examination is suggested.Storage in a poorly ventilated area may result in a buildup of gaseous radioactive decay products.Prolonged retention in the body leads to long term alpha-irradiation of the tissues.Refer for medical attention if breathing difficulties and/or fever develop.Do NOT take working clothes home.
