

# Certificate of Analysis

## Reference Material & Standard

|                    |                                            |                   |                                           |
|--------------------|--------------------------------------------|-------------------|-------------------------------------------|
| Product Name:      | 1-Methyl-4-(prop-1-en-2-yl)cyclohexan-1-ol | Catalogue Number: | C1267025                                  |
| Synonyms:          | N/A                                        | Lot Number:       | 1004-SA-7570                              |
| CAS Number:        | 138-87-4                                   | Expiry Date:      | Oct 03, 27                                |
| Molecular Formula: | C <sub>10</sub> H <sub>18</sub> O          | Storage:          | Room Temp Protected from light and Sealed |
| Molecular Weight:  | 154.25                                     |                   |                                           |

Warning:

Chemical Structure:

| Test Items      | Method            | Results    |
|-----------------|-------------------|------------|
| Appearance      | Visual inspection | Yellow Oil |
| Identification: | LC&HNMR           | Confirmed  |
| Purity:         | HPLC              | 98.738%    |
| Uncertainty     |                   | ±2.0%      |

## Comment:

The uncertainty values are the expanded uncertainty and represent an estimated standard deviation equal to the positive square root of the total variation of the uncertainty of components. A normal distribution is assumed and a coverage factor of K=2 is chosen using approximately a 95% confidence level.

## Directions:

1. *Intended use: This product is suitable for identification and quantification of the analyte(s), instrument calibration, method development and quality control in analytical and R&D applications. It is not intended for administration to humans or animals, and shall not be used to diagnose, treat or cure any diseases.*
2. *Minimum sample size: 1mg is recommended as the minimum sample size.*
3. *Metrological traceability: This product meets the requirements of ISO 17034 and is traceable to NMI through an unbroken chain of comparisons.*
4. *Instructions for handling and correct use: Handling in a well-ventilated place.*
