

# Certificate of Analysis

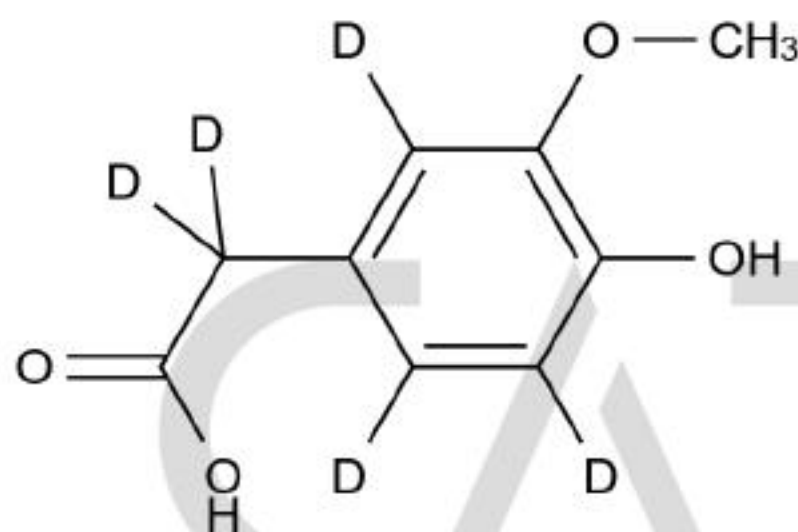

## Reference Material & Standard

|                           |                                                                                 |                          |                                           |
|---------------------------|---------------------------------------------------------------------------------|--------------------------|-------------------------------------------|
| <b>Product Name:</b>      | (4-Hydroxy-3-methoxyphenyl-2,5,6-d <sub>3</sub> )acetic-2,2-d <sub>2</sub> Acid | <b>Catalogue Number:</b> | C1479795                                  |
| <b>Synonyms:</b>          | N/A                                                                             | <b>Lot Number:</b>       | 0917-SA-7308                              |
| <b>CAS Number:</b>        | 53587-32-9                                                                      | <b>Expiry Date:</b>      | Sep 16, 28                                |
| <b>Molecular Formula:</b> | C <sub>9</sub> H <sub>5</sub> D <sub>5</sub> O <sub>4</sub>                     | <b>Storage:</b>          | 2°C ~ 8°C Protected from light and Sealed |
| <b>Molecular Weight:</b>  | 187.20                                                                          |                          |                                           |

Warning:

Chemical Structure:

| Test Items      | Method            | Results   |
|-----------------|-------------------|-----------|
| Appearance      | Visual inspection | Solid     |
| Identification: | LC&HNMR           | Confirmed |
| Purity:         | HPLC              | 96.831%   |
| Uncertainty     |                   | ±2.0%     |

## Comment:

The uncertainty values are the expanded uncertainty and represent an estimated standard deviation equal to the positive square root of the total variation of the uncertainty of components. A normal distribution is assumed and a coverage factor of K=2 is chosen using approximately a 95% confidence level.

## Directions:

- 1. Intended use: This product is suitable for identification and quantification of the analyte(s), instrument calibration, method development and quality control in analytical and R&D applications. It is not intended for administration to humans or animals, and shall not be used to diagnose, treat or cure any diseases.*
- 2. Minimum sample size: 1mg is recommended as the minimum sample size.*
- 3. Metrological traceability: This product meets the requirements of ISO 17034 and is traceable to NMI through an unbroken chain of comparisons.*
- 4. Instructions for handling and correct use: Handling in a well-ventilated place.*
