

# Certificate of Analysis

## Reference Material & Standard

|                    |                                              |                   |                                           |
|--------------------|----------------------------------------------|-------------------|-------------------------------------------|
| Product Name:      | 1,2-Diodobenzene                             | Catalogue Number: | C1922717                                  |
| Synonyms:          | N/A                                          | Lot Number:       | 0330-SA-7026                              |
| CAS Number:        | 615-42-9                                     | Expiry Date:      | Mar 29, 29                                |
| Molecular Formula: | C <sub>6</sub> H <sub>4</sub> I <sub>2</sub> | Storage:          | 2°C ~ 8°C Protected from light and Sealed |
| Molecular Weight:  | 329.90                                       |                   |                                           |

Warning:

Chemical Structure:

| Test Items      | Method            | Results                                                    |
|-----------------|-------------------|------------------------------------------------------------|
| Appearance      | Visual inspection | White or Colorless to Brown powder to lump to clear liquid |
| Identification: | LC&HNMR           | Confirmed                                                  |
| Purity:         | HPLC              | 98.093%                                                    |
| Uncertainty     |                   | ±2.0%                                                      |

## Comment:

The uncertainty values are the expanded uncertainty and represent an estimated standard deviation equal to the positive square root of the total variation of the uncertainty of components. A normal distribution is assumed and a coverage factor of K=2 is chosen using approximately a 95% confidence level.

## Directions:

- 1. Intended use: This product is suitable for identification and quantification of the analyte(s), instrument calibration, method development and quality control in analytical and R&D applications. It is not intended for administration to humans or animals, and shall not be used to diagnose, treat or cure any diseases.*
- 2. Minimum sample size: 1mg is recommended as the minimum sample size.*
- 3. Metrological traceability: This product meets the requirements of ISO 17034 and is traceable to NMI through an unbroken chain of comparisons.*
- 4. Instructions for handling and correct use: Handling in a well-ventilated place.*
