

# Certificate of Analysis

## Reference Material & Standard

|                    |                                                 |                   |                                           |
|--------------------|-------------------------------------------------|-------------------|-------------------------------------------|
| Product Name:      | Clopidogrel Impurity 67                         | Catalogue Number: | C4X-102967                                |
| Synonyms:          | 2-Amino-2-(3-chlorophenyl)acetic acid           | Lot Number:       | 0705-SA-7161                              |
| CAS Number:        | 7292-71-9                                       | Expiry Date:      | Jul 04, 28                                |
| Molecular Formula: | C <sub>8</sub> H <sub>8</sub> ClNO <sub>2</sub> | Storage:          | 2°C ~ 8°C Protected from light and Sealed |
| Molecular Weight:  | 185.61                                          |                   |                                           |

Warning:

Chemical Structure:

| Test Items      | Method            | Results                  |
|-----------------|-------------------|--------------------------|
| Appearance      | Visual inspection | White to Off-White Solid |
| Identification: | LC&HNMR           | Confirmed                |
| Purity:         | HPLC              | 96.862%                  |

## Directions:

- 1. Intended use: This product is suitable for identification and quantification of the analyte(s), instrument calibration, method development and quality control in analytical and R&D applications. It is not intended for administration to humans or animals, and shall not be used to diagnose, treat or cure any diseases.*
- 2. Minimum sample size: 1mg is recommended as the minimum sample size.*
- 3. Metrological traceability: This product meets the requirements of ISO 17034 and is traceable to NMI through an unbroken chain of comparisons.*
- 4. Instructions for handling and correct use: Handling in a well-ventilated place.*
