## Reference Material & Standard

|                           |                                                                                                   |                            |                                           |
|---------------------------|---------------------------------------------------------------------------------------------------|----------------------------|-------------------------------------------|
| <b>Product Name:</b>      | Regorafenib Monohydrate                                                                           | <b>Catalogue Number:</b>   | C4X-104724                                |
| <b>Synonyms:</b>          | N/A                                                                                               | <b>Lot Number:</b>         | 0807-RH-0026                              |
| <b>CAS Number:</b>        | 1019206-88-2                                                                                      | <b>Expiry Date:</b>        | Aug 11, 2030                              |
| <b>Molecular Formula:</b> | C <sub>21</sub> H <sub>15</sub> ClF <sub>4</sub> N <sub>4</sub> O <sub>3</sub> · H <sub>2</sub> O | <b>Storage:</b>            | 2°C ~ 8°C Protected from light and Sealed |
| <b>Molecular Weight:</b>  | 482.82 18.02                                                                                      | <b>Shipping Condition:</b> | Shipping at Room Temperature              |
| <b>Solubility:</b>        | Acetonitrile                                                                                      |                            |                                           |

| Test Items                | Method            | Results         |
|---------------------------|-------------------|-----------------|
| Appearance                | Visual inspection | Off-White Solid |
| Identification            | LCMS&HNMR         | Confirmed       |
| Purity                    | HPLC              | 99.897%         |
| Water Content             | Karl Fischer      | 4.0268%         |
| Water Content(Free Water) |                   | 0.4288%         |
| Residue on Ignition       | TGA               | 0.2477%         |
| Assay                     |                   | 99.2%           |

## Comment:

1. The content of crystal water is 3.5980%.

2. The calculation of the mass balance method follows the formula (calculated on the non-dried basis):

Assay (%) = (100% - Water Content(Free Water) - Residue on Ignition) \* Purity HPLC (%) / 100%

Water Content(Free Water) and Residue on Ignition are considered as absolute effect, HPLC purity is considered as relative effect.
