## Reference Material & Standard

|                           |                                                               |                            |                                           |
|---------------------------|---------------------------------------------------------------|----------------------------|-------------------------------------------|
| <b>Product Name:</b>      | Quetiapine EP Impurity D                                      | <b>Catalogue Number:</b>   | C4X-124415                                |
| <b>Synonyms:</b>          | N/A                                                           | <b>Lot Number:</b>         | 1204-RG-0120                              |
| <b>CAS Number:</b>        | 945668-94-0                                                   | <b>Expiry Date:</b>        | Dec 15, 2029                              |
| <b>Molecular Formula:</b> | C <sub>30</sub> H <sub>24</sub> N <sub>4</sub> S <sub>2</sub> | <b>Storage:</b>            | 2°C ~ 8°C Protected from light and Sealed |
| <b>Molecular Weight:</b>  | 504.67                                                        | <b>Shipping Condition:</b> | Shipping at Room Temperature              |
| <b>Solubility:</b>        | Dichloromethane                                               |                            |                                           |

### Chemical Structure:

| Test Items     | Method            | Results     |
|----------------|-------------------|-------------|
| Appearance     | Visual inspection | White Solid |
| Identification | LCMS&HNMR         | Confirmed   |
| Purity         | HPLC              | 99.304%     |
| Loss On Drying | TGA               | 0.0877%     |
| Assay          |                   | 99.2%       |

### Comment:

The calculation of the mass balance method follows the formula (calculated on the non-dried basis):

Assay (%) = (100% - Loss On Drying) \* Purity HPLC (%) / 100%

Loss On Drying is considered as absolute effect, HPLC purity is considered as relative effect.
