## Reference Material & Standard

|                           |                                                                              |                            |                                           |
|---------------------------|------------------------------------------------------------------------------|----------------------------|-------------------------------------------|
| <b>Product Name:</b>      | Dolutegravir Impurity 35                                                     | <b>Catalogue Number:</b>   | C4X-162035                                |
| <b>Synonyms:</b>          | N/A                                                                          | <b>Lot Number:</b>         | 0211-RH-0086                              |
| <b>CAS Number:</b>        | 2583719-57-5                                                                 | <b>Expiry Date:</b>        | Feb 25, 2030                              |
| <b>Molecular Formula:</b> | C <sub>21</sub> H <sub>21</sub> F <sub>2</sub> N <sub>3</sub> O <sub>5</sub> | <b>Storage:</b>            | 2°C ~ 8°C Protected from light and Sealed |
| <b>Molecular Weight:</b>  | 433.41                                                                       | <b>Shipping Condition:</b> | Shipping at Room Temperature              |
| <b>Solubility:</b>        | Acetonitrile                                                                 |                            |                                           |

## Chemical Structure:

| Test Items     | Method            | Results         |
|----------------|-------------------|-----------------|
| Appearance     | Visual inspection | Off-White Solid |
| Identification | LCMS&HNMR         | Confirmed       |
| Purity         | HPLC              | 99.426%         |
| Loss On Drying | TGA               | 0.1267%         |
| Assay          |                   | 99.3%           |

## Comment:

The calculation of the mass balance method follows the formula (calculated on the non-dried basis):

Assay (%) = (100% - Loss On Drying) \* Purity HPLC (%) / 100%

Loss On Drying is considered as absolute effect, HPLC purity is considered as relative effect.
