

# Certificate of Analysis

## Reference Material & Standard

|                    |                                                               |                     |                                           |
|--------------------|---------------------------------------------------------------|---------------------|-------------------------------------------|
| Product Name:      | Finasteride                                                   | Catalogue Number:   | C4X-1645                                  |
| Synonyms:          | N/A                                                           | Lot Number:         | 0810-RH-0049                              |
| CAS Number:        | 98319-26-7                                                    | Expiry Date:        | Aug 09, 2030                              |
| Molecular Formula: | C <sub>23</sub> H <sub>36</sub> N <sub>2</sub> O <sub>2</sub> | Storage:            | 2°C ~ 8°C Protected from light and Sealed |
| Molecular Weight:  | 372.54                                                        | Shipping Condition: | Shipping at Room Temperature              |

**Warning:**

Chemical Structure:

| Test Items          | Method            | Results         |
|---------------------|-------------------|-----------------|
| Appearance          | Visual inspection | Off-White Solid |
| Identification      | LCMS&HNMR         | Confirmed       |
| Purity              | HPLC              | 100.000%        |
| Residue on Ignition | TGA               | 1.1156%         |
| Loss on Drying      | TGA               | 0.0131%         |
| Assay               |                   | 98.9%           |

## Comment:

The calculation of the mass balance method follows the formula (calculated on the non-dried basis):

Assay (%) = (100% - Residue on Ignition - Loss on Drying) \* Purity HPLC (%) / 100%

Residue on Ignition and Loss on Drying are considered as absolute effect, HPLC purity is considered as relative effect.
