

## Reference Material & Standard

|                           |                                                  |                            |                                           |
|---------------------------|--------------------------------------------------|----------------------------|-------------------------------------------|
| <b>Product Name:</b>      | Irbesartan Impurity 26                           | <b>Catalogue Number:</b>   | C4X-166626                                |
| <b>Synonyms:</b>          | N/A                                              | <b>Lot Number:</b>         | 0913-RH-0029                              |
| <b>CAS Number:</b>        | N/A                                              | <b>Expiry Date:</b>        | Sep 16, 2030                              |
| <b>Molecular Formula:</b> | C <sub>25</sub> H <sub>27</sub> N <sub>3</sub> O | <b>Storage:</b>            | 2°C ~ 8°C Protected from light and Sealed |
| <b>Molecular Weight:</b>  | 385.50                                           | <b>Shipping Condition:</b> | Shipping at Room Temperature              |

| Test Items     | Method            | Results         |
|----------------|-------------------|-----------------|
| Appearance     | Visual inspection | Off-White Solid |
| Identification | LCMS&HNMR         | Confirmed       |
| Purity         | HPLC              | 99.872%         |
| Loss on Drying | TGA               | 0.7373%         |
| Assay          |                   | 99.1%           |

*The calculation of the mass balance method follows the formula (calculated on the non-dried basis):*  
*Assay (%) = (100%-Loss on Drying) \* Purity HPLC (%) /100%*  
*Loss on Drying is considered as absolute effect, HPLC purity is considered as relative effect.*
