## Reference Material & Standard

|                           |                                                               |                            |                                           |
|---------------------------|---------------------------------------------------------------|----------------------------|-------------------------------------------|
| <b>Product Name:</b>      | N-Nitroso Quinapril                                           | <b>Catalogue Number:</b>   | C4X-17411                                 |
| <b>Synonyms:</b>          | N/A                                                           | <b>Lot Number:</b>         | 0727-RH-0023                              |
| <b>CAS Number:</b>        | 2922985-13-3                                                  | <b>Expiry Date:</b>        | Jul 29, 2030                              |
| <b>Molecular Formula:</b> | C <sub>25</sub> H <sub>29</sub> N <sub>3</sub> O <sub>6</sub> | <b>Storage:</b>            | -20°C±5°C Protected from light and Sealed |
| <b>Molecular Weight:</b>  | 467.51                                                        | <b>Shipping Condition:</b> | Shipping with Ice Packs                   |
| <b>Solubility:</b>        | Acetonitrile                                                  |                            |                                           |

Chemical Structure:

| Test Items     | Method            | Results            |
|----------------|-------------------|--------------------|
| Appearance     | Visual inspection | Light Yellow Solid |
| Identification | LCMS&HNMR         | Confirmed          |
| Purity         | HPLC              | 98.565%            |
| Loss on Drying | TGA               | 3.4452%            |
| Assay          |                   | 95.2%              |

## Comment:

The calculation of the mass balance method follows the formula (calculated on the non-dried basis):

Assay (%) = (100% - Loss on Drying) \* Purity HPLC (%) / 100%

Loss on Drying is considered as absolute effect, HPLC purity is considered as relative effect.
