

# Certificate of Analysis

## Reference Material & Standard

|                           |                                                   |                            |                                           |
|---------------------------|---------------------------------------------------|----------------------------|-------------------------------------------|
| <b>Product Name:</b>      | Carteolol Impurity 35                             | <b>Catalogue Number:</b>   | C4X-228735                                |
| <b>Synonyms:</b>          | N/A                                               | <b>Lot Number:</b>         | 0717-RH-0008                              |
| <b>CAS Number:</b>        | N/A                                               | <b>Expiry Date:</b>        | Jul 19, 2030                              |
| <b>Molecular Formula:</b> | C <sub>12</sub> H <sub>12</sub> BrNO <sub>3</sub> | <b>Storage:</b>            | -20°C±5°C Protected from light and Sealed |
| <b>Molecular Weight:</b>  | 298.13                                            | <b>Shipping Condition:</b> | Shipping with Ice Packs                   |
| <b>Solubility:</b>        | Acetonitrile                                      |                            |                                           |

Chemical Structure:

| Test Items     | Method            | Results         |
|----------------|-------------------|-----------------|
| Appearance     | Visual inspection | Off-White Solid |
| Identification | LCMS&HNMR         | Confirmed       |
| Purity         | HPLC              | 97.996%         |
| Loss on Drying | TGA               | 0.0381%         |
| Assay          |                   | 98.0%           |

## Comment:

The calculation of the mass balance method follows the formula (calculated on the non-dried basis):

Assay (%) = (100% - Loss on Drying) \* Purity HPLC (%) / 100%

Loss on Drying is considered as absolute effect, HPLC purity is considered as relative effect.
