## Reference Material & Standard

|                    |                                                          |                   |                                           |
|--------------------|----------------------------------------------------------|-------------------|-------------------------------------------|
| Product Name:      | N-Acetyl-D3-S-[(furan-2-yl)methyl]-L-cysteine (FFAMA-D3) | Catalogue Number: | CCAD304265                                |
| Synonyms:          | N/A                                                      | Lot Number:       | 1224-SA-7669                              |
| CAS Number:        | N/A                                                      | Expiry Date:      | Dec 23, 28                                |
| Molecular Formula: | N/A                                                      | Storage:          | 2°C ~ 8°C Protected from light and Sealed |
| Molecular Weight:  | N/A                                                      |                   |                                           |

Warning:

Chemical Structure: N/A

| Test Items      | Method            | Results   |
|-----------------|-------------------|-----------|
| Appearance      | Visual inspection | Solid     |
| Identification: | LC&HNMR           | Confirmed |
| Purity:         | HPLC              | 97.412%   |
| Uncertainty     |                   | ±2.0%     |

## Comment:

The uncertainty values are the expanded uncertainty and represent an estimated standard deviation equal to the positive square root of the total variation of the uncertainty of components. A normal distribution is assumed and a coverage factor of K=2 is chosen using approximately a 95% confidence level.

## Directions:

- 1. Intended use: This product is suitable for identification and quantification of the analyte(s), instrument calibration, method development and quality control in analytical and R&D applications. It is not intended for administration to humans or animals, and shall not be used to diagnose, treat or cure any diseases.*
- 2. Minimum sample size: 1mg is recommended as the minimum sample size.*
- 3. Metrological traceability: This product meets the requirements of ISO 17034 and is traceable to NMI through an unbroken chain of comparisons.*
- 4. Instructions for handling and correct use: Handling in a well-ventilated place.*
