

# Certificate of Analysis

## Reference Material & Standard

|                           |                                                  |                          |                                           |
|---------------------------|--------------------------------------------------|--------------------------|-------------------------------------------|
| <b>Product Name:</b>      | 2,4-Dibromophenol-3,5,6-d3                       | <b>Catalogue Number:</b> | CCEM500885                                |
| <b>Synonyms:</b>          | N/A                                              | <b>Lot Number:</b>       | 0819-SA-7601                              |
| <b>CAS Number:</b>        | 1219805-97-6                                     | <b>Expiry Date:</b>      | Aug 18, 29                                |
| <b>Molecular Formula:</b> | C <sub>6</sub> HD <sub>3</sub> Br <sub>2</sub> O | <b>Storage:</b>          | 2°C ~ 8°C Protected from light and Sealed |
| <b>Molecular Weight:</b>  | 254.92                                           |                          |                                           |

Chemical Structure:

| Test Items      | Method            | Results                              |
|-----------------|-------------------|--------------------------------------|
| Appearance      | Visual inspection | White to Off-White Low-Melting Solid |
| Identification: | LC&HNMR           | Confirmed                            |
| Purity:         | HPLC              | 98.806%                              |
| Uncertainty     |                   | ±2.0%                                |

## Comment:

The uncertainty values are the expanded uncertainty and represent an estimated standard deviation equal to the positive square root of the total variation of the uncertainty of components. A normal distribution is assumed and a coverage factor of K=2 is chosen using approximately a 95% confidence level.

## Directions:

1. *Intended use: This product is suitable for identification and quantification of the analyte(s), instrument calibration, method development and quality control in analytical and R&D applications. It is not intended for administration to humans or animals, and shall not be used to diagnose, treat or cure any diseases.*
2. *Minimum sample size: 1mg is recommended as the minimum sample size.*
3. *Metrological traceability: This product meets the requirements of ISO 17034 and is traceable to NMI through an unbroken chain of comparisons.*
4. *Instructions for handling and correct use: Handling in a well-ventilated place.*
