

# Certificate of Analysis

## Reference Material & Standard

|                           |                                    |                          |                                           |
|---------------------------|------------------------------------|--------------------------|-------------------------------------------|
| <b>Product Name:</b>      | 2,4-Diethylthioxanthen-9-One       | <b>Catalogue Number:</b> | CCHM702319                                |
| <b>Synonyms:</b>          | N/A                                | <b>Lot Number:</b>       | 0312-SA-7842                              |
| <b>CAS Number:</b>        | 82799-44-8                         | <b>Expiry Date:</b>      | Mar 11, 29                                |
| <b>Molecular Formula:</b> | C <sub>17</sub> H <sub>16</sub> OS | <b>Storage:</b>          | Room Temp Protected from light and Sealed |
| <b>Molecular Weight:</b>  | 268.37                             |                          |                                           |

Chemical Structure:

| Test Items      | Method            | Results   |
|-----------------|-------------------|-----------|
| Appearance      | Visual inspection | Solid     |
| Identification: | LC&HNMR           | Confirmed |
| Purity:         | HPLC              | 96.935%   |
| Uncertainty     |                   | ±2.0%     |

## Comment:

The uncertainty values are the expanded uncertainty and represent an estimated standard deviation equal to the positive square root of the total variation of the uncertainty of components. A normal distribution is assumed and a coverage factor of K=2 is chosen using approximately a 95% confidence level.

## Directions:

1. *Intended use: This product is suitable for identification and quantification of the analyte(s), instrument calibration, method development and quality control in analytical and R&D applications. It is not intended for administration to humans or animals, and shall not be used to diagnose, treat or cure any diseases.*
2. *Minimum sample size: 1mg is recommended as the minimum sample size.*
3. *Metrological traceability: This product meets the requirements of ISO 17034 and is traceable to NMI through an unbroken chain of comparisons.*
4. *Instructions for handling and correct use: Handling in a well-ventilated place.*
