

# Certificate of Analysis

## Reference Material & Standard

|                    |                                                 |                   |                                           |
|--------------------|-------------------------------------------------|-------------------|-------------------------------------------|
| Product Name:      | Chloriodoacetic Acid                            | Catalogue Number: | CCHM705622                                |
| Synonyms:          | N/A                                             | Lot Number:       | 0503-SA-7186                              |
| CAS Number:        | 53715-09-6                                      | Expiry Date:      | May 02, 29                                |
| Molecular Formula: | C <sub>2</sub> H <sub>2</sub> ClIO <sub>2</sub> | Storage:          | 2°C ~ 8°C Protected from light and Sealed |
| Molecular Weight:  | 220.39                                          |                   |                                           |

Warning:

Chemical Structure:

| Test Items      | Method            | Results                        |
|-----------------|-------------------|--------------------------------|
| Appearance      | Visual inspection | Off-White to Light Beige Solid |
| Identification: | LC&HNMR           | Confirmed                      |
| Purity:         | HPLC              | 97.477%                        |
| Uncertainty     |                   | ±2.0%                          |

## Comment:

The uncertainty values are the expanded uncertainty and represent an estimated standard deviation equal to the positive square root of the total variation of the uncertainty of components. A normal distribution is assumed and a coverage factor of K=2 is chosen using approximately a 95% confidence level.

## Directions:

1. *Intended use: This product is suitable for identification and quantification of the analyte(s), instrument calibration, method development and quality control in analytical and R&D applications. It is not intended for administration to humans or animals, and shall not be used to diagnose, treat or cure any diseases.*
2. *Minimum sample size: 1mg is recommended as the minimum sample size.*
3. *Metrological traceability: This product meets the requirements of ISO 17034 and is traceable to NMI through an unbroken chain of comparisons.*
4. *Instructions for handling and correct use: Handling in a well-ventilated place.*
