

# Certificate of Analysis

## Reference Material & Standard

|                    |                                                |                   |                                           |
|--------------------|------------------------------------------------|-------------------|-------------------------------------------|
| Product Name:      | Erucic acid                                    | Catalogue Number: | CIM-100042                                |
| Synonyms:          | N/A                                            | Lot Number:       | 0221-SA-7873                              |
| CAS Number:        | 112-86-7                                       | Expiry Date:      | Feb 21, 28                                |
| Molecular Formula: | C <sub>22</sub> H <sub>42</sub> O <sub>2</sub> | Storage:          | 2°C ~ 8°C Protected from light and Sealed |
| Molecular Weight:  | 338.57                                         |                   |                                           |

## Chemical Structure:

| Test Items      | Method            | Results                              |
|-----------------|-------------------|--------------------------------------|
| Appearance      | Visual inspection | White to Off-White Low-Melting Solid |
| Identification: | LC&HNMR           | Confirmed                            |
| Purity:         | HPLC              | 98.799%                              |
| Uncertainty     |                   | ±2.0%                                |

## Comment:

The uncertainty values are the expanded uncertainty and represent an estimated standard deviation equal to the positive square root of the total variation of the uncertainty of components. A normal distribution is assumed and a coverage factor of K=2 is chosen using approximately a 95% confidence level.

## Directions:

1. *Intended use: This product is suitable for identification and quantification of the analyte(s), instrument calibration, method development and quality control in analytical and R&D applications. It is not intended for administration to humans or animals, and shall not be used to diagnose, treat or cure any diseases.*
2. *Minimum sample size: 1mg is recommended as the minimum sample size.*
3. *Metrological traceability: This product meets the requirements of ISO 17034 and is traceable to NMI through an unbroken chain of comparisons.*
4. *Instructions for handling and correct use: Handling in a well-ventilated place.*
