

# Certificate of Analysis

## Reference Material & Standard

|                    |                                                |                   |                                           |
|--------------------|------------------------------------------------|-------------------|-------------------------------------------|
| Product Name:      | 1-(8-Methylnonyl) 1,2-benzenedicarboxylate     | Catalogue Number: | CPAE111884                                |
| Synonyms:          | N/A                                            | Lot Number:       | 0920-SA-7074                              |
| CAS Number:        | 69725-01-5                                     | Expiry Date:      | Sep 19, 28                                |
| Molecular Formula: | C <sub>18</sub> H <sub>25</sub> O <sub>4</sub> | Storage:          | 2°C ~ 8°C Protected from light and Sealed |
| Molecular Weight:  | 305.39                                         |                   |                                           |

Warning:

Chemical Structure:

| Test Items      | Method            | Results                                   |
|-----------------|-------------------|-------------------------------------------|
| Appearance      | Visual inspection | Colourless to Off-White Oil to Semi-Solid |
| Identification: | LC&HNMR           | Confirmed                                 |
| Purity:         | HPLC              | 97.253%                                   |
| Uncertainty     |                   | ±2.0%                                     |

## Comment:

The uncertainty values are the expanded uncertainty and represent an estimated standard deviation equal to the positive square root of the total variation of the uncertainty of components. A normal distribution is assumed and a coverage factor of K=2 is chosen using approximately a 95% confidence level.

## Directions:

- 1. Intended use: This product is suitable for identification and quantification of the analyte(s), instrument calibration, method development and quality control in analytical and R&D applications. It is not intended for administration to humans or animals, and shall not be used to diagnose, treat or cure any diseases.*
- 2. Minimum sample size: 1mg is recommended as the minimum sample size.*
- 3. Metrological traceability: This product meets the requirements of ISO 17034 and is traceable to NMI through an unbroken chain of comparisons.*
- 4. Instructions for handling and correct use: Handling in a well-ventilated place.*
