

# Certificate of Analysis

## Reference Material & Standard

|                           |                                    |                          |                                           |
|---------------------------|------------------------------------|--------------------------|-------------------------------------------|
| <b>Product Name:</b>      | Tetraphenyltin                     | <b>Catalogue Number:</b> | LOT111624-ME                              |
| <b>Synonyms:</b>          | N/A                                | <b>Lot Number:</b>       | 0226-SA-7858                              |
| <b>CAS Number:</b>        | 595-90-4                           | <b>Expiry Date:</b>      | Feb 25, 29                                |
| <b>Molecular Formula:</b> | C <sub>24</sub> H <sub>20</sub> Sn | <b>Storage:</b>          | 2°C ~ 8°C Protected from light and Sealed |
| <b>Molecular Weight:</b>  | 427.13                             |                          |                                           |

Chemical Structure:

| Test Items      | Method            | Results   |
|-----------------|-------------------|-----------|
| Appearance      | Visual inspection | Solid     |
| Identification: | LC&HNMR           | Confirmed |
| Purity:         | HPLC              | 98.675%   |
| Uncertainty     |                   | ±2.0%     |

## Comment:

The uncertainty values are the expanded uncertainty and represent an estimated standard deviation equal to the positive square root of the total variation of the uncertainty of components. A normal distribution is assumed and a coverage factor of K=2 is chosen using approximately a 95% confidence level.

## Directions:

1. *Intended use: This product is suitable for identification and quantification of the analyte(s), instrument calibration, method development and quality control in analytical and R&D applications. It is not intended for administration to humans or animals, and shall not be used to diagnose, treat or cure any diseases.*
2. *Minimum sample size: 1mg is recommended as the minimum sample size.*
3. *Metrological traceability: This product meets the requirements of ISO 17034 and is traceable to NMI through an unbroken chain of comparisons.*
4. *Instructions for handling and correct use: Handling in a well-ventilated place.*
